Period of Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claims

Claims 13-28 and 34-39 are canceled. Claims 1, 31, and 33 are amended.

Election/Restrictions

This application contains the following patentably distinct species of the claimed invention:

Species A, first embodiment, Specification [0063], drawn to a liquid crystal display of embodiment one, (Figure 6) wherein the upper quarter wave plate compensates the residual optical retardation caused by the liquid crystal layer when the maximum operation voltage is applied.

Species B, second embodiment, Specification [0078], drawn to a liquid crystal display of embodiment two, (Figure 9) wherein the second lower retardation film has a third adjusted thickness to compensate a residual optical retardation caused by the liquid crystal layer when the maximum operation voltage is applied.

Please note:

1) An allowance has been granted on the parent Application, 09/850,186, wherein Applicant elected Species B. Examiner naturally anticipates Applicant will elect species A in the instant Application.

2) Upon careful review of the pending claims and the Specification, at least dependent claims 31 and 33 appear to be drawn to species B. Examiner recommends/requests election of species A and careful review and amendment or cancellation of any and all claims drawn to the non-elected species B.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species (A anticipated) for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, it appears claim 1 might be generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims

are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Timothy L Rude whose telephone number is (571) 272-2301. The examiner can normally be reached on Monday through Thursday.
